📍 Moulali, Hyderabad, Telangana

Career Objective

Detail-oriented Computer Science student with hands-on experience in full-stack web development and real-world project implementation using React, Node.js, Express, and MongoDB. Passionate about building responsive web applications, smart healthcare solutions, and user-friendly systems using modern technologies. Seeking an entry-level role as a Full Stack Developer, Web Developer, or Python Developer where I can apply my skills in API integration, database management, problem-solving, and full-stack development to create impactful and production-ready applications.

Education

Bachelor of Engineering – CSE (2024 – Present) <i>Vignan Bharathi Institute of Technology (VBIT), Hyderabad</i>	<i>CGPA: 8.31 (Pursuing)</i>
Board of Intermediate – MPC <i>Sri Chaitanya Junior College, Hyderabad</i>	<i>Percentage: 89.3%</i>
Secondary School Certificate (SSC) <i>Dr. KKR Gowtham High School, Hyderabad</i>	<i>CGPA: 10.0 / 10.0</i>

Internship Experience

Web Development Intern <i>Yuga yatra Retail Pvt Limited</i> - Worked on responsive frontend UI, dashboard layouts and modern web experiences using React. - Strengthened problem-solving and logical thinking through end-to-end development workflows.	Remote
AI Data Contributor (Freelance) <i>Outlier</i> - Worked on AI training and data annotation tasks, contributing to improving the accuracy and performance of AI-generated responses through prompt evaluation and content analysis. - Gained hands-on experience in AI workflow processes, problem-solving, and quality assurance while collaborating on real-world projects involving language models and data review tasks.	Remote

Projects

- What The News / AI News Gossification Platform / 24-Hour Hackathon**
 - Built an AI-powered news platform converting headlines into multi-style summaries using LLMs and n8n automation.
- University Management System/ Java**
 - Developed a menu-driven system using OOP, Implemented validation, student ID generation, and grading system
- Smart Health Queue (Full stack Development)**
 - Developed a web application to manage hospital queues, Implemented patient management and emergency response system.
 - Tech Stack: React, Node.js, Express, MongoDB

Technical Skills

Languages: C, Java, Python, HTML, CSS, JavaScript (Basics)
AI & Automation: AI Content Generation
Developer Tools: Git, GitHub, VS Code,
Core Concepts: Data Structures, Object-Oriented Programming, File Handling, Debugging, REST APIs
Soft Skills: Problem Solving, Logical Thinking, Team Collaboration, Rapid Prototyping (Hackathons)

Extra-Curricular Activities

Coordinator — DataVedhi Club

- Coordinated technical and coding-related activities, actively participated in problem-solving sessions, and solved programming challenges to strengthen logical and analytical skills.

Member - Computer Society of India (CSI)

- Contributed to organizing hackathons, technical events, and workshops while collaborating with team members to manage event coordination and student engagement activities.

Certifications

C Essentials 1 & 2	Cisco / NSDC
Python Essentials 1 & 2	Cisco / NSDC
Infosys Spring Board	Database Management System
Infosys Spring Board	Data Structures
Infosys Spring Board	Operating System
Participant Certificate	Smart India Hackathon (SIH)
Participant Certificate	Code Sprint Hackathon
